# What makes a practical kitchen?

The kitchen you opt for will last you for 15 years or more. So put time and thought into your purchase – don't just focus on design. Kitchens that are fit for everyday use are not only beautiful but also practical.

A practical kitchen has the following features:

- Efficient workflow (ergonomics)
- Optimum space utilisation (storage space)
- Freedom for your ideas (design)
- Enhanced convenience (motion)

Let's take you through how Blum can help enhance your kitchen with innovative fittings, clever cabinet solutions and useful kitchen planning.

## Contents

- 02 Ideas for practical kitchens
- 04 Ergonomics
- 06 Storage space
- 08 Quality of motion
- 10 Design
- 12 Kitchen test drive
- 14 Lift systems
- 16 Box systems
- 20 Inner dividing systems
- 26 Cabinet applications
- 28 Pocket systems
- 30 Waste solutions
- 31 Further products

## Ergonomics – Make your life easier with smooth workflows.

Smooth workflows are fundamental to good ergonomics. Clearing away shopping, laying the table, unloading the dishwasher and, naturally, cooking. Meal preparation and clean-up are daily recurring activities or 'workflows'. To make your life easier, ask yourself what your habits and routines are right from the start when planning your kitchen.

Over

**600**

kitchen observations carried out  
so far in more than

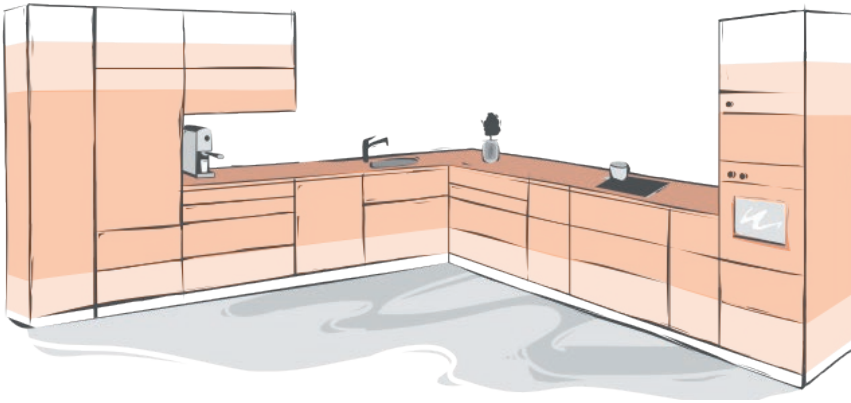

**30**

countries.

### Practical inner dividing systems

Nice and tidy. Flexible inner dividing systems ensure that kitchen utensils, cutlery, odds and ends, open packs of food and even heavy jars of provisions are immediately to hand.

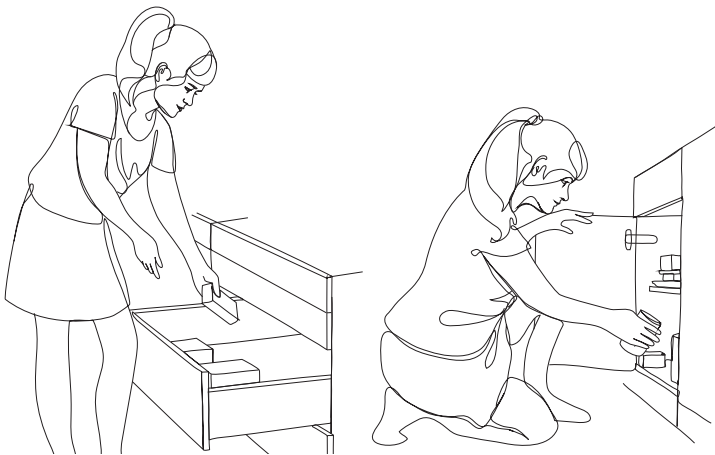

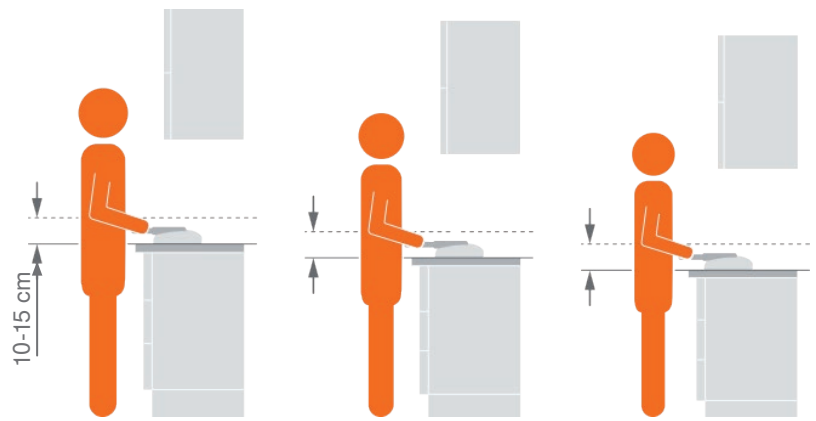

### Ideal storage place

Certain items are used more often than others. Keep those you use all the time at an easy-to-reach level, store the items you seldom use in other areas.

### Healthy posture

Your worktop needs to be at the right height to ensure good ergonomics.

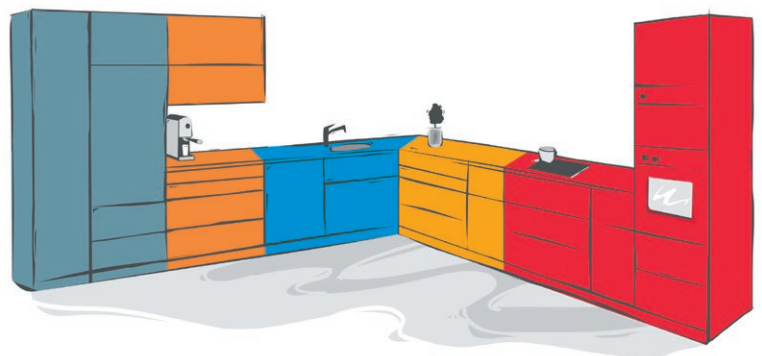

### Use lift systems and drawers instead of doors

Make your kitchen ergonomic, use full extension drawers and pull-outs. They give you clear visibility and easy access to contents, making it easier to find all of the items you need at a glance!

### Five work zones

Kitchens can be divided into five zones to cater for typical tasks. This means that you can keep everything exactly where you need it, shortening distances and saving you valuable time.

# Storage space – Everything exactly where it should be.

You can never have too much storage space, especially when it comes to kitchens. But what to do if you have a small floor plan? Use every inch available and conjure up extra space! It's easy with clever cabinet solutions that provide ample storage space – just like that.

## Extra cleaning storage

Create unexpected storage space! A special sink pull-out makes full use of the space around the sink, perfect for items such as cleaning supplies.

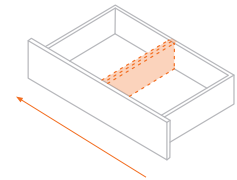

## Customised storage space

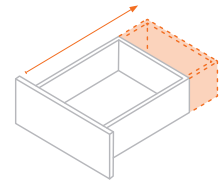

The SPACE TOWER pantry unit can be tailored to your personal needs. Ideal for everyone, from those living on their own to large families.

## Create more storage space

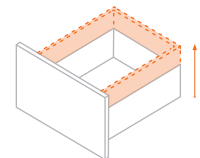

up to **+15%** with wider units

up to **+30%** with deeper drawers

up to **+55%** with higher side panels

### Easily access overhead cabinets

AVENTOS lift systems allow cabinet doors to open upwards and out of the way, giving you easy access to contents and full freedom of movement.

### No leftover space

The SPACE TWIN narrow cabinet securely holds bottles, chopping boards and baking sheets, and keeps everything nice and tidy.

### Storage space in the plinth

With SPACE STEP, you can even create extra storage in the toe kick of your cabinetry – don't waste an inch of space.

## Quality of motion – Supreme ease.

Make sure your new kitchen feels good. Use overhead cabinets, doors and drawers that open with ease and close softly and effortlessly. Choose drawers that have a feather-light glide even when heavily laden. This is where top-quality fittings technology comes in. You'll feel the difference, try it out for yourself!

Blum's motion technologies not only make it easier to open and close furniture – they make motion a mesmerising experience. Be it electrical or mechanical, they deliver enhanced ease of use to furniture throughout the home.

# Motion technologies

## BLUMOTION

### Mechanical soft closing motion.

The beauty of silence in a hectic home. Drawers, doors and lift systems close softly and effortlessly. Most Blum products have BLUMOTION already integrated as a standard.

for lift systems, doors, and drawers

## SERVO-DRIVE

### Electrical one touch opening with soft close.

The electrical opening support system for drawers and lift systems is the ultimate in user convenience. Also available is SERVO-DRIVE flex for refrigerators, freezers and dishwashers, and SERVO-DRIVE uno for waste bin pull-outs.

for lift systems, drawers, refrigerators/freezers, dishwashers and bins

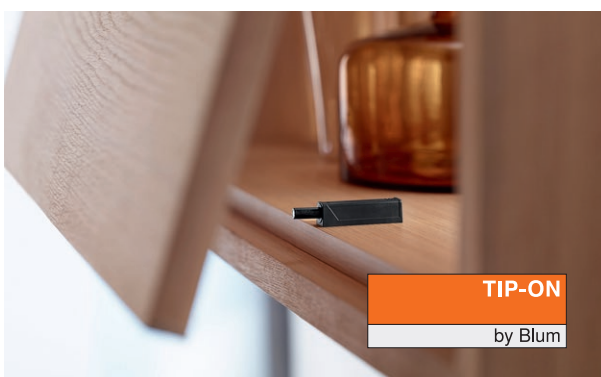

## TIP-ON BLUMOTION

### Mechanical press to open with soft close.

This innovative technology combines mechanical one-touch opening with soft and effortless closing for handle-less drawers.

for selected drawers

## TIP-ON

### Mechanical press to open and press to close.

If you don't want handles, mechanical press to open for doors and lift systems is affordable and ideal. To close, press shut.

for selected lift systems and doors

# Design – Turn your creative ideas into reality.

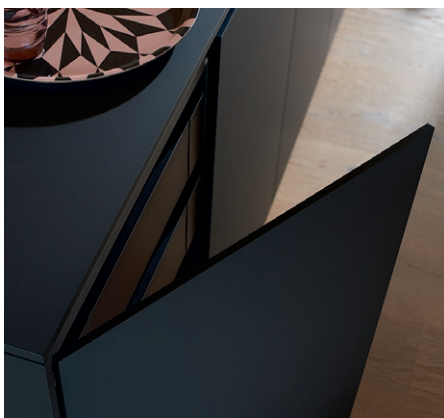

## Handle-less furniture

Different motion technologies for wall cabinets, doors and drawers open up infinite possibilities for handle-less furniture. Be inspired by sleek design and enhanced ease of use.

## Wide fronts

Furniture with wide fronts is becoming increasingly popular. Our fittings ensure high stability and smooth running characteristics, regardless of the size and weight of the fronts.

## Thin fronts

Achieve a sleek aesthetic for thin fronts. Blum allows you to implement fronts with a thickness of 8 mm or more in a wide range of materials thanks to the EXPANDO T fixing method.

## Dark surfaces

Showcase your furniture creations with Blum products. Whether you want to achieve a harmonious balance, or create daring contrasts, dark fittings bring design to your kitchen furniture interiors.

## Test drive your kitchen with Blum to bring your plans to life.

The kitchen is the heart of every home. It's where families connect over food and where guests are entertained. As a high-traffic area, it often requires a large investment and meticulous planning. Book a kitchen test drive to help visualise the way your kitchen design translates from the plan to your home, in just three easy steps.

# We've done our research!

Blum has been researching the needs of kitchen users around the world for years. The insights we gain have helped us identify a variety of practical essentials for kitchens, such as storage requirements, organisation ideas, or functional cabinet applications. Visit us for a kitchen test drive and learn how to make your kitchen both beautiful and practical.

## Book an appointment

Our lovely showroom consultants will confirm the time and date of your appointment.

## Send through your plans

Before the day of your booking, send through your kitchen plans to our showroom team. We'll bring your project to life for you before you arrive.

## Test drive your kitchen

Our team are happy to answer any questions you might have. Your designer and/or cabinet maker are welcome to join you on the day.

# Lift systems – AVENTOS

## For more freedom of movement.

AVENTOS lift systems deliver top quality motion and enhanced ease of use to any overhead cabinet. Be it in kitchens or other living areas, with large or small fronts, all overhead cabinets equipped with AVENTOS open with utmost ease and close again softly and effortlessly with integrated soft-close BLUMOTION. Fronts glide up and out of the user's way, providing full freedom of movement.

### Tip

Lift systems are ideal for overhead cabinets. Fronts lift up and out of the way, stopping exactly where you leave them thanks to the built-in variable stop.

## Since 2005

### Ongoing development:

We continuously strive to improve AVENTOS – for better quality furniture.

### ☐ AVENTOS HF top – bi-fold lift

480 - 1200 mm high

The solution for high wall cabinets with bi-fold fronts. Little space is needed above the cabinet.

### ☐ AVENTOS HS top – up & over lift

350 - 800 mm high

The ideal fitting for large fronts. There is enough space above the cabinet for cornice or crown mouldings.

### ☐ AVENTOS HL top – lift up

300 - 580 mm high

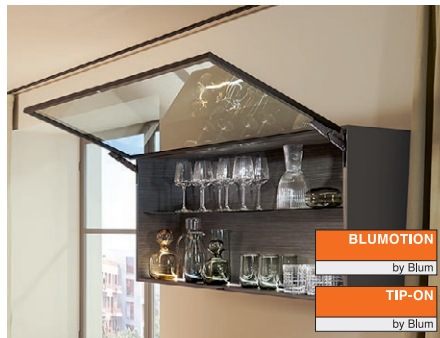

Suitable for wall cabinets with cabinets above them. It can also solve tricky installation situations, e.g. integration of electrical appliances.

### ☐ AVENTOS HK top – stay lift

205 - 600 mm high

Compact, minimalist and highly functional. Small but strong, AVENTOS HK top is suitable for both small and large wall cabinets.

### ☐ AVENTOS HKi – integrated stay lift

205 - 600 mm high

The concealed lift system is completely integrated in the cabinet side – to create virtually seamless furniture.

\*Mechanism only available in onyx black

### ☐ AVENTOS HK-XS – small stay lift

240 - 600 mm high

Suitable for many applications and needs very little space. The lift system can even be used for cabinets with a shallow internal depth.

#### Cover cap colours

☐ Silk white

☐ Light grey

☐ Dark grey

# 100,000

opening & closing cycles

Our drawers are designed to be opened and closed 100,000 times so that they are a pleasure to use for the lifetime of the furniture.

## LEGRABOX

LEGRABOX meets the highest standards of design. With elegant, slim sides and many design possibilities, manufacturers can create a distinctive drawer design. LEGRABOX drawers can be up to 1400 mm wide, and inner drawers up to 1200 mm, with integrated BLUMOTION as a standard. SERVO-DRIVE and TIP-ON BLUMOTION are optional add ons.

### ☐ LEGRABOX pure – N height

80 mm high space requirement  
A shallow drawer, perfect for under the hob or in a toekick.

### ☐ LEGRABOX pure – M height

106 mm high space requirement  
A low height drawer used for cutlery and utensils, fits AMBIA-LINE.

### ☐ LEGRABOX pure – K height

144 mm high space requirement  
Low height drawer, good for slightly larger items like ladles or spices.

### ☐ LEGRABOX pure – C height

193 mm high space requirement  
A deep drawer perfect for larger items such as crockery, pots and pans.

### ☐ LEGRABOX free – C height

191 mm high space requirement  
LEGRABOX free boasts glass sides for a premium design.

### ☐ LEGRABOX pure – F height

257 mm high space requirement  
The highest drawer is ideal for storing taller items, like small appliances.

#### Colours

- ☐ Silk white matt
- ☐ Orion grey matt
- ☐ Carbon black matt

#### Additional options

- ☐ Inner drawers (compatible with M, K, C)
- ☐ EXPANDO T for thin fronts
- ☐ Anti-fingerprint stainless steel  
(indent order only)

# MERIVOBX

Offering variety has never been so easy. This platform makes it simple to manufacture and assemble drawers while offering stunning design. MERIVOBX drawers can be up to 1200 mm in width, with integrated BLUMOTION as a standard. SERVO-DRIVE and TIP-ON BLUMOTION are optional add ons.

## ☐ MERIVOBX – N height

85.5 mm high space requirement

A shallow drawer, perfect for under the hob or in a toekick.

## ☐ MERIVOBX – M height

108 mm high space requirement

A low height drawer used for cutlery and utensils, fits AMBIA-LINE.

## ☐ MERIVOBX – K height

146 mm high space requirement

Low height drawer, good for slightly larger items like soup spoons.

## ☐ MERIVOBX modular, gallery – E height

209 mm high space requirement

A deep drawer perfect for larger items, with an open gallery rail side.

## ☐ MERIVOBX modular, BOXCAP – E height

209 mm high space requirement

A deep drawer perfect for larger items, with a clip on high-side.

## ☐ MERIVOBX pure – E height

209 mm high space requirement

A deep drawer perfect for larger items, with continuous high side.

## ☐ MERIVOBX modular, BOXCAP – F height

253 mm high space requirement

The highest drawer is perfect for more stacking height.

## Colours

☐ Silk white matt

☐ Orion grey matt

## Additional options

☐ Inner drawers (compatible with M, K, E)

☐ EXPANDO T for thin fronts

## TANDEMBOX

TANDEMBOX, the classic. Our tried and tested metal box system, stands for a reliable product, bespoke services, minimalist design and consistent development. TANDEMBOX drawers can be up to 1200 mm in width, with integrated BLUMOTION as a standard. SERVO-DRIVE is an optional add on.

### ☐ TANDEMBOX – N height

82.5 mm high space requirement

A shallow drawer, perfect for under the hob or in a toekick.

### ☐ TANDEMBOX – M height

98.5 mm high space requirement

A low height drawer used for cutlery and utensils, fits ORGA-LINE.

### ☐ TANDEMBOX – C height

192 mm high space requirement

A slightly higher drawer perfect for items such as mugs, bowls or plates.

### ☐ TANDEMBOX – D height

224 mm high space requirement

A deep drawer perfect for larger items such as pots or containers.

### Colours

☐ Silk white

### Additional options

☐ Inner drawers (compatible with M, C, D)

# Inner dividing systems – AMBIA-LINE, ORGA-LINE

\*Image 550 mm

## Tip

With order and organisation, work becomes effortless. Blum's clever inner dividing systems help to improve your workflow, saving you valuable time.

# Beautifully organised interiors throughout your entire home.

Inner dividing systems are ideal for keeping kitchen utensils, food items, shirts, socks, ties and even toys nice and tidy. They can be moved between drawers, and adapted to hold new items, again and again. Or discover our kitchen accessories range to make your life easier. Our plate holder, for example, gives you easy and hassle free table setting. Every time.

## For every drawer

Try using **AMBIA-LINE** or **ORGA-LINE**

in the bathroom, laundry, wardrobe and more!  
Our inner dividing systems pair perfectly with LEGRABOX, MERIVOBX and TANDEMBOX for a harmonious space.

### Everything at your fingertips

AMBIA-LINE and ORGA-LINE don't just make interiors beautiful, they make your life easier. By organising the contents in your drawers, you can find every item quickly and easily.

## AMBIA-LINE

The inner dividing system for LEGRABOX and MERIVOBX consists of elegant inserts and frames which beautifully organise furniture interiors throughout the home. AMBIA-LINE fits drawers that are 450 mm, 500 mm and 550 mm deep.

☐ **Cutlery drawer** \*Image 500 mm

☐ **Utensil drawer**

☐ **Cleaning utensils**

☐ **Film & foil dispenser**

☐ **Knife holder**

☐ **Odds and ends**

☐ **Steel design finishes** \*Image 550 mm

☐ Silk white matt

☐ Orion grey matt

☐ Carbon black matt

☐ **Wood design finishes** \*Image 550 mm

☐ Nebraska oak for orion grey

☐ Tennessee walnut for carbon black

☐ **Starter Pack** \*Image 500 mm

☐ Silk white matt

☐ Orion grey matt

☐ Carbon black matt

### Tips

For the best use of space, utilise the areas between drawer sides and other frames to create extra partitions.

☐ Provisions

☐ Plate holder

☐ Reusable containers and lids

☐ Waste bins and cleaning items

☐ Spice holder

☐ Bottles

☐ Bottles and chopping boards

☐ Pots, pans and lids

**Kitchen Accessories** (Film & foil dispenser, knife holder and plate holder)

## ORGA-LINE

ORGA-LINE organises interiors and gives you clear visibility of contents. The stainless steel containers can be arranged as required and they are even dishwasher-safe. ORGA-LINE fits drawers that are 450 mm, 500 mm and 550 mm deep.

☐ Cutlery drawer

☐ Kitchen utensils

☐ Cooking utensils

☐ Baking utensils

☐ Cleaning utensils

☐ Odds and ends

☐ Film dispenser

☐ Foil dispenser

☐ Knife holder

**Tip**

Flexible dividers organise and securely hold items in drawers. You'll find the right inner dividing system for almost every item of your kitchen here.

☐ **Provisions**

☐ **Plate holder**

☐ **Reusable containers and lids**

☐ **Waste bin and cleaning items**

☐ **Spice holder**

☐ **Baking trays and tins**

☐ **Bottles and chopping boards**

☐ **Pots, pans and lids**

**Kitchen Accessories** (Knife holder, film dispenser, foil dispenser, spice holder and plate holder)

# Cabinet applications

## Storage solutions for every space.

All our cabinet solutions are the result of comprehensive, real-world surveys. In other words, they're fit for everyday use. If you want to store lots of things, you need the right storage: cleverly designed cabinet applications make optimal use of the space available. Cabinet applications are achieved by using LEGRABOX, MERIVOBX and TANDEMBOX for cohesive hardware throughout every cabinet.

## 2100 patents

We take pride in offering high-quality products that you can trust to last the lifetime of the kitchen.

Box system: \_\_\_\_\_

Colour: \_\_\_\_\_

### ☐ SPACE STEP

Gain space back in the toe kick of the base unit and access overhead cabinets.

### ☐ SPACE TWIN

Use the even most narrow space without compromising stability or quality of motion.

### ☐ Sink drawer

The perfect space for storing cleaning products such as dish cloths or brushes.

## SPACE TOWER

☐ **TANDEMBOX**  
Gallery sides and fronts

### Tip

SPACE TOWER is an easy-to-use pantry unit with integrated BLUMOTION that provides ample storage space. Inner drawers can be opened individually and are easily accessible from the front and sides.

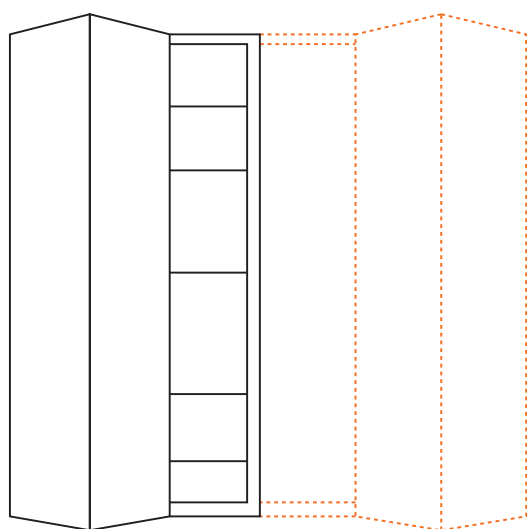

# Pocket systems – REVEGO

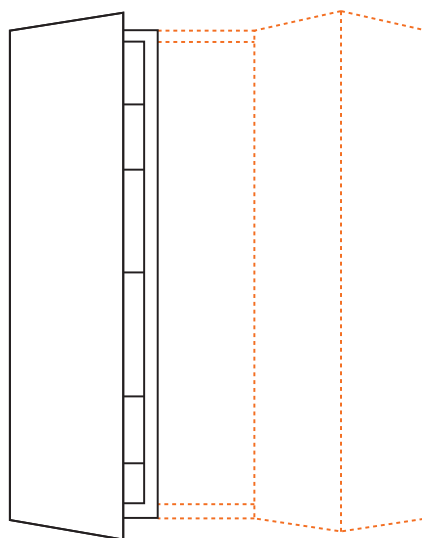

## Pocket systems for new space concepts.

What is so innovative about REVEGO? More commonly, people are merging their kitchen, dining and living spaces, a trend transforming modern home designs. REVEGO supports new space concepts and opens up design opportunities for every area throughout the home without sacrificing the top-quality motion and user convenience you have come to expect from Blum. Specify with or without handles thanks to TIP-ON and give free rein to your creativity with REVEGO.

**\*Handles are for cosmetic purposes only and cannot be used to open or close REVEGO**

☐ **REVEGO duo**  
Double door application

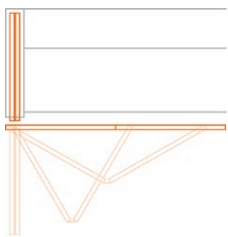

☐ **REVEGO uno**  
Single door application

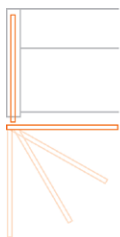

### Tip

For minimal protrusion, make your REVEGO pocket depth greater than the door width.

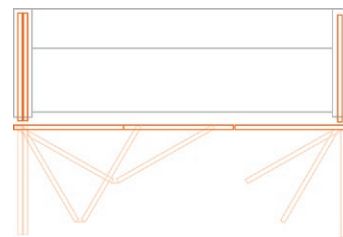

Use REVEGO uno and REVEGO duo to effortlessly conceal large work surfaces and give your home the wow factor. Both product versions can be combined as desired.

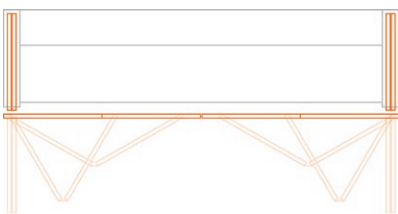

☐ **REVEGO duo**  
For widths of 900 – 1500 mm

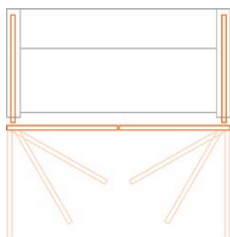

☐ **REVEGO uno**  
For widths of 450 – 900 mm

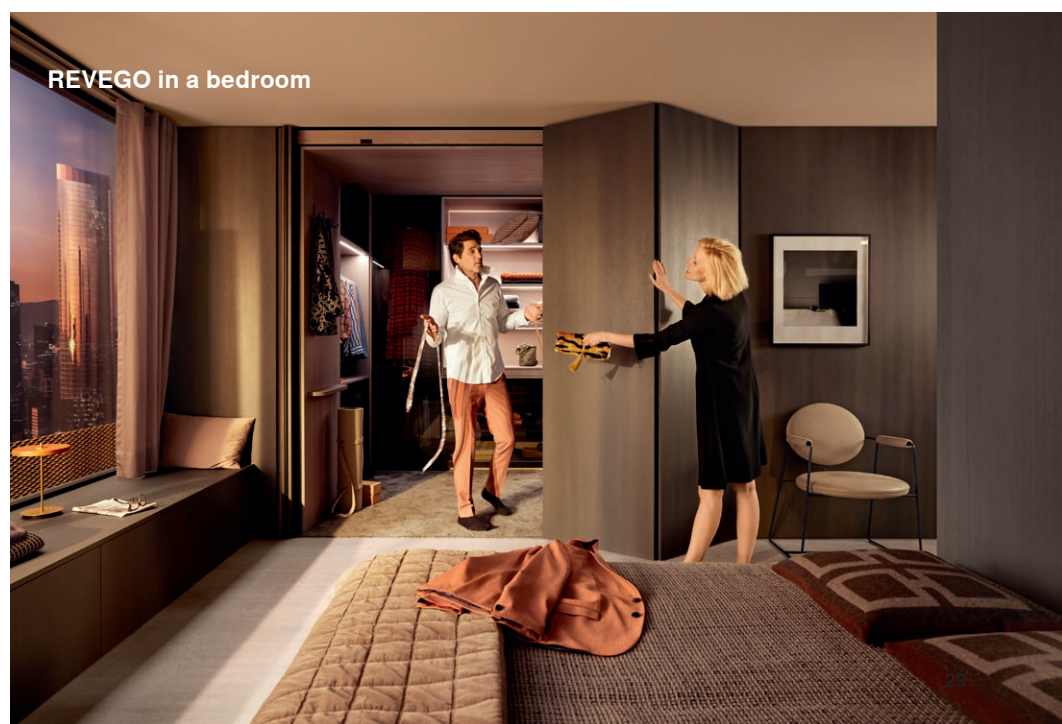

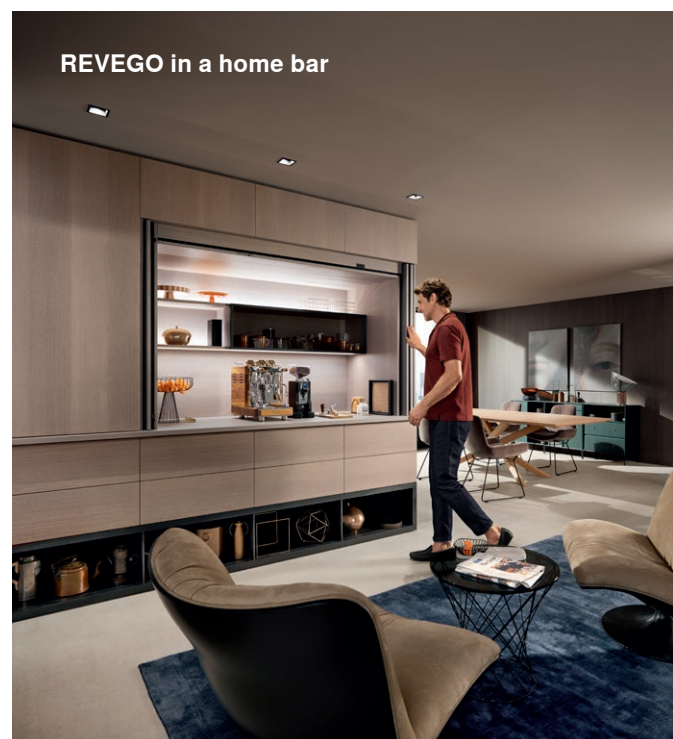

☐ **REVEGO duo + uno**  
For widths of 1350 – 2400 mm

☐ **REVEGO duo + duo**  
For widths of 1800 – 3000 mm

☐ **REVEGO uno + uno**  
For widths of 900 – 1800 mm
